

4th Young AGERs Symposium 2019 – Maastricht University *‘Maillard reaction in food and in vivo’*

During the Young AGERs Symposium, young scientists and researchers will come together to share their research and discuss ideas in the field of the Maillard reaction. This event is a perfect opportunity to connect the chemical analytical perspective of Maillard reaction research with the in vivo approach. This year the symposium will be held in Maastricht, organised by the Department of Internal Medicine Group of Maastricht University Medical Centre.

Date:

Thursday 11th of April until Friday 12th of April 2019

Concept:

The concept of the symposium remains mainly unchanged and the key topics will be:

- Maillard reaction in vivo and its implication in health and disease
- Maillard reaction in food and plants
- Molecular background and analytic strategies

We ask everyone to be an active participant of the symposium by providing a short oral presentation (*15 min presentation + 5 minutes discussion*). In case of many registrations we might have to include some shorter presentations (*5 minutes*). We will contact you directly requesting an abstract after your registration.

Registration & Information:

For registration, please fill in and return the registration form to Kim Maasen.
e-mail: kim.maasen@maastrichtuniversity.nl **before 15 February 2019.**

Registration fee:

Participation is free and includes lunch. Participants are asked to provide for their own accommodation (*suggestions can be provided regarding affordable housing*). There will also be an evening program with a social event on Thursday.

Looking forward to meeting you at our symposium!

Mathias, Kim, Tate and Armand
PhD candidates Maastricht University. The Department of Internal Medicine, MUMC, Maastricht, the Netherlands.
